COMPUTER CLASS 5

Research

Choose one computer-related topic that interests you the most. It could be about coding, robotics, digital art, internet safety, or any other aspect of computer science. Research your chosen topic and prepare a short presentation (about 5-7 slides) to share with your classmates when you return to school.

Internet Safety Poster

Create a poster to raise awareness about internet safety. Include tips for staying safe online, such as never sharing personal information, being cautious when interacting with strangers, and reporting any suspicious activity to a trusted adult.
